**ARBOVITAE**

**ARBORVITAE HETZ MIDGET**

*Thuja occidentalis Hetz Midget*

- **HT:** 2'
- **W:** 2'
- **Z:** 3

Small evergreen shrub has dense, globe shaped growth habit. Rich green needles are arranged in flat layered sprays. Its low, compact form make this a popular accent plant.

*Available Now* Call Baker's at 701-237-6255 for more details

**ARBORVITAE LITTLE GIANT**

*Thuja occidentalis Little Giant*

- **HT:** 2'-3'
- **W:** 2'-3'
- **Z:** 3

Globe shaped evergreen shrub. A versatile and useful plant. Rich green foliage and small form help make this a wonderful foundation plant, specimen or hedge.

*Available Now* Call Baker's at 701-237-6255 for more details

**ARBORVITAE MR. BOWLING BALL**

*Thuja occidentalis 'Bobazam'*

- **HT:** 2'-3'
- **W:** 2'-3'
- **Z:** 3

A unique, compact, perfectly global arborvitae with dense, fine-textured, soft, sage-green foliage resembling a fine-textured juniper or false cypress. Requires little or no shearing.

*Available Now* Call Baker's at 701-237-6255 for more details

**ARBORVITAE TECHNY GLOBE**

*Thuja occidentalis Techny Globe*

- **HT:** 4-5'
- **W:** 4-5'
- **Z:** 3

A sturdy and hardy shrub that is ideal for foundation and rock garden plantings; must be sheared annually to maintain globe shape; foliage is consistantly green all year long and resists winter burning, takes pruning very well.

*Available Now* Call Baker's at 701-237-6255 for more details

**ARBORVITAE WOODWARD-GLOBE**

*Thuja occidentalis Woodwardii*

- **HT:** 3-5'
- **W:**
- **Z:** 4

Retains globe shape without trimming. Has a rich green foliage.

*Available Now* Call Baker's at 701-237-6255 for more details

**JUNIPER**

**JUNIPER BLUE STAR**

*Jun squamata Blue Star*

- **HT:** 2-3'
- **W:** 3-4'
- **Z:** 4

Attractive sparkling blue star-like foliage, irregular growth habit, interesting accent plant.

*Available Now* Call Baker's at 701-237-6255 for more details

**JUNIPER BLUEBERRY DELIGHT**

*Juniperus communis depressa 'AmiDak'*

- **HT:** 12"-15"
- **W:** 4'-5'
- **Z:** 3

Dense, low, spreading Juniper with rich, dark green needles with a contrasting silvery blue line on the upper leaf surface. A North Dakota State University introduction. Full sun.

*Available Now* Call Baker's at 701-237-6255 for more details

**JUNIPER DWARF JAPGARDEN**

*Jun procumbens nana*

- **HT:** 12"
- **W:** 6'
- **Z:** 3

Creeping dwarf, dense mound of branches radiate from center, bright green, plum color in winter.

*Available Now* Call Baker's at 701-237-6255 for more details

**MUGHO PINE PARADEKISSEN**

*PINUS MUGO SUB. UNINATA PARADEKISSEN*

- **Light:** Full Sun
- **Flower Color:**

This compact selection grows into a low spreading mound that looks very much like a green pillow. Rich, deep-green short needles cover the plant providing a dense, tidy, slow growing ground cover. An excellent choice for trough gardens or other group container plantings.

#1 gallon  Avail Now

---

**MUGHO PINE SHERWOOD**

*PINUS MUGO SHERWOOD*

- **Light:** Full Sun
- **Flower Color:**

A truly dwarf mugo pine, reaching only two feet high, with a wonderful dense habit and rounded upright shape. Small, densely needled stems are accented in winter by golden tips and shiny whitish fascicles, giving the plant a radiant look. This slow growing, easy-care shrub forms a dense mound and will not require pruning to maintain its neat form.

#2 gallon  Avail Now

---

**MUGHO PINE SLOWMOUND**

*PINUS MUGO SLOWMOUND*

- **Light:** Sun to Part Shade
- **Flower Color:**

An outstanding new selection of a true dwarf mugo pine. A dark green, dense mound, and compact enough to plant in even the most confined areas.

**Description:**
- **Spruce Dwarf Norway Thumbelina:** This extremely dense tiny Norway Spruce forms a tight cushion of sharp, short needles. Grows 1 to 3 inches a year.
- **Spruce Globe Elf:** This true dwarf gem grows extremely slowly and forms a dense globe with short, fine needles that emerge blue-green in spring. Ideal for rock garden, trough or miniature railroad. A witch’s broom found on Picea glauca ‘Conica’.
- **Spruce Lundeby’s Dwarf:** Steel blue needles and short horizontally layered stems give ‘Lundeby’s Dwarf’ its reliably wider than tall growth habit. This rare specimen is an extremely hard discovery by Lundeby’s Nursery in North Dakota.
- **Spruce Montgomery:** Outstanding slow growing dwarf, sharp steel blue needles, attractive accent plant.
- **Spruce Mrs Cesarii Patio Tree:** This grafted shrub onto a tree stalk with highlighted gray-green flattened mound that is densely branched and profusely budded; needles regularly puff out with a second flush in mid summer and there is contrast between new and old foliage.
- **Spruce Norway Pusch:** A dwarf spreading evergreen conifer with green needles. Plants tend to be loaded with tiny cute cones, red in the spring, then maturing to brown by summer. Prefers full sun in well-drained soil. 1’ tall x 2’ wide in 10 years.
- **Spruce White Big Berta:** Picea glauca ‘Big Berta’ is not your typical Dwarf Alberta Spruce, this cultivar is a “big berta”. It has the same ‘Conica’ type juvenile foliage but the needles are much longer and growth rate is much faster, resulting in a more open form. A hybrid of Picea glauca ‘North Star’ and P. pungens ‘Montgomery, it’s a hardy choice for northern landscapes.
- **Yew Dark Green:** Rich deep green foliage, wonderful hedges, foundation plantings, or specimen, red berries in summer.

**Availability:**
- Call Baker’s at 701-237-6255 for more details.
### Yew Dark Green Pyramidal

*Taxus x media dark green pyramidal*

- **Height:** 12'-15'
